Facility Management Software & POS for the Amusement, Entertainment & FEC Industries

CenterEdge Software lets you manage all aspects of your entertainment facility or attraction from a single software suite. We've thought of everything – from online waivers to advanced reporting that gives you the insight you need to be responsive.

Thrill each and every guest with a seamless experience, grow your business and get support from a team that understands. CenterEdge Software was designed by family entertainment pros and our support team is staffed with industry experts.

Advantage POS

Purpose-built for the amusement industry, Advantage delivers lightning-fast transactions, endless configurability and best-in-class security features.

Group & Party Booking

Never miss a deposit again and make birthday parties and outings a breeze with fully integrated booking and management software.

Online Sales & Ticketing

Your guests buy just about everything online. Why not passes and packages for your attraction? Get an online store and sell 24/7/365.

Integrated Waivers

Let your guests sign waivers online, in-store, or on their smartphones, and speed up check-in.

Access Control

Choose from a range of solutions from print-on-demand wristbands and tickets to timed sessions, capacity ticketing, RFID solutions, and pass validation.

Food & Beverage

There's no need for a separate restaurant POS. Manage your concessions and full-service food and beverage from the same system as the rest of your facility.

Memberships & Passes

Build loyalty, reward brand ambassadors, boost visits and drive revenue with built-in recurring billing that supports all your marketing efforts.

Employee Management

Always know what's going on in your business with an integrated time clock, payroll management, granular permissions and comprehensive security tools.

Cashless Operation

Eliminate purchase barriers with wristbands, cards or RFID media, and keep the transactions flowing with a total facility cashless solution.
